Overview

The LumiCloud Access Control Door License offers one year of cloud-based access management for a single door. It allows administrators to configure user access permissions, organize users and doors into groups, and maintain detailed access logs for that specific door. Designed for secure and efficient access control, this license is fully compatible with Luminys web access controllers.

Key Technologies

With a LumiCloud access control door license, users can authorize devices for sub-account management or revoke authorization for enhanced security and troubleshooting. Over-the-air (OTA) updates are supported for hassle-free device management.

System Requirements and Technical Specifications

Consult the information below to verify the specifications and conditions the subscription license requires to perform properly.

LumiCloud Subscription Plans

There are two versions of LumiCloud available: LumiCloud Lite and LumiCloud Access.

LumiCloud Lite

- Included with the purchase of select Luminys access control models
- Supports product registration and management with the creation of a LumiCloud account
- Free in perpetuity with select Luminys access control models

LumiCloud Access

- Upgrade to LumiCloud Access for additional features
- Supports scheduling, user and group management, remote door lock and unlock, and more.
- Offered as a one-year subscription plan
