Overview

LumiCloud HD Video Unity NVR Channel subscription license supports one Luminys camera when connected to a Luminys NVR for one channel for one-year with high-performance video surveillance solution utilizing AI-based events, 30-day rolling AI Event cloud storage, remote maintenance, real-time device health monitoring, comprehensive support for enhanced security monitoring. Archive important video events indefinitely in the cloud (requires active license and provides up to 30 GB archive storage per end-user account).

Key Technologies

The LumiCloud HD Unity Video License enables remote management capabilities and access to high-powered analytics for Luminys cameras and NVRs. With a license, users can authorize devices for sub-account management or revoke authorization for enhanced security and troubleshooting. Share live streams with time constraints or specific video events with others via email for increased situational awareness. Remote software updates are supported for hassle-free device management.

In addition to remote management abilities, license holders have access to powerful analytics including intelligent motion detection (iMD), video content analytics (VCA), line crossing, intrusion, tampering, and scene change.

*Third-party camera support in LumiCloud is limited to live feed and playback capabilities only.

System Requirements and Technical Specifications

Consult the information below to verify the specifications and conditions the subscription license requires to perform properly.

LumiCloud Subscription Plans

There are two versions of LumiCloud available: LumiCloud Lite and LumiCloud HD Video Unity.

LumiCloud Lite

- Included with the purchase of select Luminy's NVRs
- Supports product registration and management with the creation of a LumiCloud account
- Free in perpetuity with select Luminy's NVRs

LumiCloud HD Video Unity

- Upgrade to LumiCloud Unity for additional features
- Supports AI-based events, notifications, video storage and more
- Offered as a one-year subscription plan
