LCL-ST4

Key Features

- One-Year Subscription License
- Real-Time Monitoring
- Event-Based Video Recording
- System and Device Health Monitoring
- Alerts and Notifications
- Data and Reporting

Certifications and Compliance

- NDA COMPLIANT

Overview

The LumiCloud Solar Trailer License includes a one-year license with support for up to four (4) channels for the LumiGuardian Solar Trailer, a portable, solar-powered surveillance system built for outdoor use. The trailer operates on solar energy with an internal battery for continuous power. It displays real-time battery and solar panel status and is equipped with a built-in GPS module for accurate location tracking.

Key Technologies

With a LumiCloud solar trailer license, users can authorize devices for sub-account management or revoke authorization for enhanced security and troubleshooting. Live streams and events can be shared with third parties for increased situational awareness. The license also enables enhanced remote control and functionality including over-the-air updates, remote light control, and loudspeaker broadcasting and alarms.

System Requirements and Technical Specifications

Consult the information below to verify the specifications and conditions the subscription license requires to perform properly.

LumiCloud Subscription Plans

There are two versions of LumiCloud available: LumiCloud Lite and LumiCloud Solar Trailer.

LumiCloud Lite

- Included with the purchase of the LumiGuardian Solar Trailer
- Supports product registration and management with the creation of a LumiCloud account
- Free in perpetuity with LumiGuardian Solar Trailer

LumiCloud Solar Trailer

- Upgrade to LumiCloud Solar Trailer for additional features
- Supports up to 30 days of event cloud storage, permanent cloud archive, and more
- Offered as a one-year subscription plan
